Asia Pacific Vascular Intervention Course

Aims & Objectives:

- Learning experience for participants and platform for exchange of knowledge between key opinion leaders of the world.
- To increase awareness and understanding of the complete spectrum of interventional therapies.

Conference Format:

- Three day meeting - Focus on medical therapy, interventional devices and techniques, case selection and complications.
- Didactic Lectures & Live Case Transmissions from various sites in Asia Pacific region
- Live Case Demonstrations by various National and International Experts
- Hands-on Workshops
- Case Based discussions with invited International Faculty
- Multidisciplinary, Educational Course covering Basics and Advanced techniques of Peripheral Vascular Interventions, basic concepts of vascular biology, New Techniques on Endovenous Lasers, Endo Lasers, Stem Cell Therapy, EVAR, TEVAR, CDTT, Therapies for Prostatic Hyperplasia, Osteoarthritis & Brachial/Visceral Bleeding, Large Bore Closure Device, Internal Pudendal Artery stenting for male erectile dysfunction, Interventions for Acute Stroke.
- First live demo of Percutaneous Bental Procedure by Dr Prof Diego Gaia, Brazil.

Target Audience:

- Vascular Interventionalists, Cardiologists & Interventional Cardiologist, Interventional Radiologists, Vascular & Cardiothoracic Surgeons, Interventional Neurologist and Neurosurgeons, Physicians, Nurses and Technicians.

Some of the highlights of last years' meeting were-

- 850 Delegates
- 23 International Faculty
- 102 International Delegates
- 83 Industry participants
- 3 Orations
- 230 people on Simulator Workshops
- 8 Workshops
- ISEVS India Chapter
- Awards of Fellowships of Asia Pacific Vascular Society
- Iron MAN Competition (6 rarest of rare cases with Out of Box Thinking)
Winner – Dr George Joseph (CMC Vellore)
- **Launch of National Vascular Registry**

Course Chairmen

N N Khanna

APVIC So FAR !! – Movie Presentation

Course Introduction

MOVING FORWARD WITH A MEANING - ISEVS AND APVS

Ten years of association of ISEVS & growth of APVS - Experiences and goals ahead

Session : BEST PRACTICES IN CATHLAB

(ISEVS Indian Chapter- DEDICATED TO MEMORY OF DR EDWARD B DIETRICH)

- A to Z of radiation protection: How do I protect Myself from Radiation Hazards
- Eye Disorders in Interventional cardiologist - What Are They and How to Prevent?
- How do I prevent & What Do I do if I get a needle stick injury

Session: LIVE CASE

Session : HOW TO DO & WHY TO DO ?

(Vascular Imaging and Non Invasive Diagnosis)

How do I Clinically workup my patients of Peripheral Vascular Disease (Arterial and Venous)

- Interpreting Images and Tips and Tricks of Performing Duplex Scan
- Conventional Angiogram / DSA
- CT Angiography
- MR Angiography
- Optimization of Diagnostic / Interventional Imaging with CO₂ Angiography

Session: DIGITAL ERA OF HEALTHCARE - ROBOTICS & ARTIFICIAL INTELLIGENCE (AI) IN VASCULAR INTERVENTIONS

- AI in Interventional Cardiology – Applications and Challenges
- Role of AI in improving patient care
- Implications of AI in Medical Device Deployment
- Progress in Vascular Robotics
- Role of medical apps in Vascular Care

Session: LIVE CASE

Session : FRESH FROM OVEN – ADVANCED INTERVENTIONAL TECHNIQUES

- Endoluminal Shock Wave Lithotripsy
- Rheolytic thrombectomy in PE & Vascular Ischemia / thrombosis
- Carotid Angioplasty Stenting with the Micromesh stent
- IVUS during Venous and Arterial Interventions
- Drug Eluting Technologies for Below The Knee Interventions
- Techniques for Below-ankle-revascularisation: When to use them
- Transcervical Carotid Artery Stenting (TCAR)

Session: Oration

Session: COLLABORATIVE HEALTHCARE

(Vascular Team – Surgeon, Cardiologist & Radiologists Perspective to Manage)

- The “Unsalvageable” Foot
- Aortic Armageddon - Aneurysms
- AV Malformations
- Management of Pulmonary Embolism
- Venous Reflux and Varicosities

Session: NIGHTMARES IN VASCULAR INTERVENTIONS

10 CD Presentations (Selected from over 500 CDs)

Session: LIVE CASE

Session: CRITICAL LIMB ISCHEMIA – HOT TOPICS

- Stem Cell Therapy, Wound Management, “No -option” CLI Patients
- Validation of SVS-WiFi Classification
- Transpedal approach for BTK lesions in CLI
- Immediate assessment of the haemodynamic result in critical limb ischemia

Session : LIVE-IN-BOX

FOCUS SESSION :

- > ALL YOU WANT TO KNOW – INTERVENTIONAL ONCOLOGY
- > ALL YOU WANT TO KNOW – EMBOLIZATION THERAPIES
- > ALL YOU WANT TO KNOW – INTERVENTIONS FOR ERECTILE DYSFUNCTION
- > ALL YOU WANT TO KNOW – PROSTATIC ARTERY EMBOLISATION FOR BENIGN HYPERTROPHY OF PROSTATE
- > ALL YOU WANT TO KNOW – INTERVENTIONS IN TRAUMA
- > ALL YOU WANT TO KNOW – RENAL & HEPATIC TRANSPLANT PATIENTS

Session: LIVE CASE

Session: COMPLICATIONS IN ENDOVASCULAR PROCEDURES

10 CD Presentations (Selected from over 500 CDs)

Session : HAPPY FEET PROGRAM

Session : APVIC IRON MAN : Rarest of Rare Cases Competition

(Rarest of Rare Cases from Across the World with Out-of-Box-Thinking)

Session : PRESIDENT’S VOICE

(Presentation of Data of International Vascular Registries)

Session :

Data Presentation of 1st National Vascular Registry

Session : LIVE-IN-BOX

Session : KEYNOTE LECTURES

Frank Veith (USA)
Chang Shu (China)
Jacques Busquet (France)
Samin Sharma (USA)

Session: CHIP ENDOVASCULAR (Complex and Higher Risk Indicated Vascular Interventional Procedures)
10 CD Presentations (Selected from over 500 CDs)

Session: LIVE-IN-BOX

Session : ORATION II

Dedicated Session: VENOUS, LYMPHATIC DISEASES, VASCULAR MALFORMATIONS :

OVER VIEW OF VENOUS INTERVENTIONS

SUPERFICIAL VEINS

- How to Choose between various Endovenous Modalities to Treat Venous Reflux (Varicose Veins) : Review of different RCTs
- Foam Sclerotherapy
- Mechanochemical Endovenous Ablation (MOCA)

DEEP VEINS

- Is Catheter Directed Thrombolytic Therapy still indicated after ATTRACT Trial ?
- Update on Venous Stenting and role of IVUS
- Update on Management of Post Thrombotic Syndrome
- Implantable Venous Valve : Are They Ready to go ?
- Upper Limb DVT
- Latest Advancement in Management of Central Vein Occlusion
- Where do we stand with IVC Filter in 2019 ?

Session: LIVE CASE 

PULMONARY EMBOLISM

- How to Manage Acute Pulmonary Embolism in 2019
- Interventions in Chronic Pulmonary Hypertension : CETPH

PELVIC VEINS

- Deep Dive into Pelvic Congestion Syndrome
- How to Decide If Pelvic Reflux is Clinically Relevant

LYMPHATICS

- Wise Approach to Assessment of Sole in leg?
- Update on Diagnosis and Management of Lymphedema
- Silicone Tube Lymphatics Implantation for Therapy of Advances Cases of Lower and Upper Limb
- Lymphedema

Session: Challenging Venous Cases : Award Session

10 CD Presentations (Selected from over 500 CDs)

Session: Oration

iVeins @ APVIC Session

- It is a Series of one to one demonstration / discussion of a wide range of venous pathologies, available and upcoming technologies and interventions by the World Experts.

DIALYSIS ACCESS (APNIC @APVIC)

- Epidemic of Vascular Access Failure : Defining the Problem & Strategies to Treat
- Case Based Presentations
- Tips and Tricks of CVO Recanalisation
- Case Presentation of Difficult AV Access – Permacath Implantation
- How to Choose between Balloon / Drug Coated Balloon / Cutting Balloon / Stents / Stent Grafts
- Balloon Assisted Maturation of A V Fistula
- Percutaneous Creation of AV Fistula

Session: GLOBAL EXPERT EXCHANGE : EVEN BIG BOYS FAIL – In Memory of Clifford J Buckley
10 CD Presentations (Selected from over 500 CDs)

Session : APVIC VASCULAR ACCESS WORKSHOP

Session : STRUCTURAL HEART THERAPIES IN INDIA : A New Wave in Cardiovascular Interventions

TAVR Symposium :

- A - Z of Transcatheter Aortic Valve Replacement
- TA VR in 2019 – What we Know and What to Expect ?
- TA VR & Watchman: Complementary Therapies in Patients with Aortic Stenosis and Atrial Fibrillation
- Cerebral Protection for TA VR- An Imperative?
- Antiplatelet & Antithrombotic strategies in post TAVR patient
- Iliac rupture during TA VR
- Transcatheter valve programs: Keys to success

Other Interventions :

- A – Z of Performing Transcatheter ASD / PFO Closure
- A – Z of Performing Transcatheter VSD Closure
- A – Z of Performing Transcatheter PDA Closure
- A – Z of Performing Transcatheter LA Appendage Occlusion /
- A – Z of Performing Transcatheter RSOV Closure
- A – Z of Performing Good Interatrial Septal Puncture and Balloon Mitral Valvotomy

Session : LIFETIME ACHIEVEMENT AWARD

Session : INTERVENTIONS FOR ACUTE VASCULAR THROMBOSIS

- Acute arterial thrombosis: How to manage
- Arterial thrombectomy: New devices and strategies
- Protocols of Catheter Directed Pulmonary Artery Thrombolysis

FELLOWS SESSION

- Transition from Fellowship to Consultancy
- Successful first year fellowship
- Fellows Summit – Round table discussion with Faculty – Coronary, Endovascular, Structural
- Vascular assessment after procedures
- Salvaging an iatrogenic arterial injury / rupture

EVAR / TEVAR

- Newer Endografts
- Management of Aneurysms with Short and Angulated Neck Endoanchors
- Incraft and Other Low Profile Endograft for Abdominal Aortic Aneurysm
- Newer Advancements in preventing Endoleaks and Spinal Cord Ischemia during EVAR and TEVAR
- Demonstrative Techniques for doing INSitu Fenestration in cases for Acute Aortic Dissection

PARADIGM SHIFT IN EVAR & TEVAR

- Sac sealing and Non Covered Stents for Abdominal Aortic Aneurysm
- MFM for Abdominal Aortic Aneurysm
- Percutaneous BENTALL : Is it on the Horizon ?

CONTROVERSIES & CHALLENGES

- Endovascular management of aortic aneurysm repair
- SFA, BTK
- Carotid Interventions
- Renal Interventions

NEW TECHNIQUES & CONCEPTS:

ILIAC & BTK

- Hybrid approach (Transradial and transpedal) for iliac and SFA interventions

CAROTID

- Safe carotid stenting: Tips & Tricks
- RADCAR-ACS trial – Transradial access for roadsaver stent implantation in acute carotid syndrome
- RADCAR – DISTAL – Distal radial artery access for carotid and subclavian artery interventions

ANEURYSMS & DISSECTIONS

- Multilayer Flow Modulator Stent for the treatment of Aortic Dissections
- Chimney CERAB (Covered Endovascular Reconstruction of the Aortic Bifurcation)

CTO SUMMIT – ART OF CROSSING CTO:

- CTO- Getting started: Tools and protocols
- Peripheral CTO: How is peripheral CTO different from coronary CTO
- Tibial Occlusion – Wire, Catheter and Approach
- Aortoiliac CTO – Approaches and Advanced Techniques
- Step by Step Approach to SFA-Popliteal Occlusions

LIVE IN BOX

WORK UP & DECISION MAKING: CLINICAL ALGORITHMS

- Asymptomatic carotid artery stenosis
- Asymptomatic Abdominal and thoracic aortic aneurysms
- SFA Lesions
- BTK Lesions
- What tools for what lesions?

Session ETHICAL ISSUES

- Ethical challenges of Artificial Intelligence in health care
- Cyber Safety in Medical Practice for doctors
- Stress Management for Doctors Amidst Their Busy Clinical Practice

JOINT SESSIONS OF VARIOUS NATIONAL SOCIETIES @ APVIC

- TTT @ APVIC
- ISIC @ APVIC
- CSI-NIC @ APVIC
- SCAI @ APVIC
- ISEVS @ APVIC
- APSC @ APVIC
- 4TS @ APVIC
- African Society of Cardiology @ APVIC
- APNIC @ APVIC
- LAI @ APVIC
- VAI @ APVIC
- UAE Chapter of Cardiology @ APVIC
- Bulgarian Society for Endovascular Therapy

Global Update on Cardiovascular Medicine

Session I ***Lost in the Labyrinth of Anticoagulants or Finding Our Way***

Making Sense of Data

1. How do I Pick NOAC for Stroke Prevention in Non Valvular Atrial Fibrillation

2. How do I Pick NOAC for Management of VTE/PE?

Risk Assessment of Stroke in Patients with NVAF: Are We Really Capturing All Patients Who Should have Anticoagulation?

NOAC in Setting of PCI: Implications from PIONEER and RE-DUAL Study

COMPASS Trial: Redefining the Role of Rivaroxaban in Stable Cardiovascular Disease, Insights from Trial

Overview of Management of Bleeding & Reversal Agents for NOAC's

Session II ***New Hopes for Heart Failure Management***

The Failing Heart: How Much Burden We Face in India?

The Latest Classifications of Heart Failure (HFrEF vs. HFpEF vs. HFmrEF): Which group is my patient?

How Do I manage My Patient of HF with Preserved EF or Mid-range EF?

How Do I manage My Patients with Heart Failure with Reduced Ejection Fraction: Insights from SHIFT, PARADIGM HF and Others

Practical Strategies for Reducing HF Readmissions

Future Pipeline of HF Therapy: What is The Role of Nephylisin Inhibitor?

When Should I send My Patient for LVAD or Heart Transplant?

Interventional Treatment for Acute HF: Renal Artery Stenosis, Rupture of Sinus Valsava, Aortic Dissection with Acute AR

How Do I manage my Heart Failure Patient with Hyponatremia?

Session III ***CARDIODIABETES***

Diabetes: Is this a Cardiology Problem?

The Clinical Impact of Recent Cardiovascular Outcome Trials with

Newer Anti-Diabetic Drugs: What Every Physicians Needs to Know

Special Considerations in the Management of PAD in Diabetic Patients

Cardiovascular Protection in the treatment of Type 2 DM: Fact or Fiction

Is My Diabetic Patient having Vascular Complications?

Practical Issue in Managing My Diabetic Patient: Insulin or OAD: How Do I Choose and Optimize?

His Master Voice

Session IV ***Lipid: How Low and How to Go?***

Part 1: Chasing a Number is the Most Practical and Sensible Way

Part 2: Numbers Do Not Matter: Give the Maximum Tolerated Dose

Rebuttal: Part 1

Rebuttal: Part 2

Game Changer : New Outcomes Data of PCSK9, FOURIER and ODYSSEY Trials

FOURIER and ODYSSEY Trials: Which Patient Benefits the Most in a Cost-effective Way?

How to Assess and Manage Statin Intolerance

Is it Relevant to Target HDL and Triglycerides?

His Master Voice

Session V ***Deep Vein Thrombosis and Pulmonary Embolism***

DVT and PE: The Magnitude of The Problem

Role of Thrombophilia Testing in VTE

DVT in Young - What are the Causes ?

Hypercoagulable State, Anatomical Abnormality, Trauma, or a Sign of Occult Malignancy

LMWH vs NOAC vs Vit K Antagonist : Which One I Choose and for How Long ?

Why Should I send My Patient with Acute DVT or PE to Interventional Cardiologist/Vascular Interventionist?

LIFE MATTERS

Treatment of Cardiovascular Disorders - Where do We Stand in 2020 and The Way Forward

New Frontiers in Coronary and Cerebrovascular Disease : Genetic and Environmental

Is it Really Possible to Regress The Atherosclerotic Plaque

Can Ischemic Strokes be Prevented ?

Role of Nutrition, Diet, Physical Activity and Mental Health in Maintaining Cardiovascular Health

Interventions at Individual, Community and Political Level to Fight the Menace of Cardiovascular Disease in India

APVIC WORKSHOPS

- Simulation Training- Subcutaneous ICD, LV lead placement
Conduction System Placement
- Renal Artery Sympathetic Denervation
- Angiojet & Penumbra Thrombectomy
- Workshop on Office Based Vein Practice
- Orbital Atherectomy
- CT & MR Workshop
- Simulation Workshop for Peripheral Interventions
- Vascular Access - Device Closure Workshop
- Transcatheter Aortic Valve Implantation
- Hands on Training on EVAR and TEVAR Devices & Procedures
- Intravascular Ultrasound in Deep Venous Interventions
- Workshop of Intravascular Ultrasound, OCT and Rota Ablation
- Learning Hands on Ultrasound Guided arterial and venous punctures
- Course in Duplex Ultrasonography in Pelvic Congestion Syndrome
- Workshop on Duplex Scanning in Peripheral Vascular Disease
- Podiatry
- APVIC Interventional Nephrology Symposium
- Screening of Radiation Induced Cataracts
- Stem Cell Therapy
- APVS Technicians / Nurses Programme
- Yoga for Doctors
